

AMENDMENTS TO THE CLAIMS

1. (cancelled) A vehicle having a dashboard and means for holding a cell phone on top of said vehicle dashboard.

2. (cancelled) The vehicle of claim 1 wherein the position of said holding means is adjustable.

3. (cancelled) The vehicle of claim 2 wherein said holding means includes means for connecting a source of power to said cell phone.

4. (cancelled) The cell phone of claim 3 wherein said power source comprises a cigarette lighter outlet.

5. (cancelled) The vehicle of claim 4 further including means for connecting the cigarette lighter outlet to said cell phone.

6. (cancelled) The vehicle of claim 5 wherein said mounting means includes a cell phone charging device.

7. (cancelled) The vehicle of claim 6 wherein said connecting means is coupled to said charging means.

8. (cancelled) The mounting means of claim 1 wherein said cigarette outlet is mounted on top of the vehicle dashboard.

9. (cancelled) A vehicle having a dashboard and a compartment formed on said dashboard for holding a cell phone.

10. (cancelled) The vehicle of claim 9 wherein the position of said holding means is adjustable.

11. (cancelled) The vehicle of claim 10 wherein said holding means includes means for connecting a source of power to said cell phone.

B1
Cont.

12. (cancelled) The vehicle of claim 11 wherein a movable door is provided to enclosed said cell phone within said compartment.

13. (cancelled) The vehicle of claim 1 wherein said cell phone includes a camera to view scenes external or interior to said vehicle.

14. (cancelled) The vehicle of claim 9 wherein said cell phone includes a camera to view scenes external or internal to said vehicle.

15. (previously presented): Apparatus for holding a cell phone having first and second surfaces on a vehicle dashboard having top and front surfaces, said apparatus comprising:

a frame adapted to hold a cell phone in an up-right position;

a first power source outlet formed within said top surface of said dashboard;

means for adjusting the angular position of said frame whereby said front surface of said cell phone can be positioned to face the interior or exterior of said vehicle;
and

means for connecting said cell phone to said first power source outlet.

16. (previously presented): The apparatus of claim 15 wherein said first power source outlet comprises a first cigarette lighter outlet.

17. (previously presented): The apparatus of claim 16 further including a second cigarette lighter outlet on the front surface of said dashboard.

18. (previously presented): The apparatus of claim 15 wherein said frame includes a cell phone charging means positioned therein.

19. (previously presented): The apparatus of claim 18 wherein said cell phone is connected to said first power source outlet via said charging means.

20. (previously presented): The apparatus of claim 15 wherein said adjusting means is coupled to said connecting means.

21. (previously presented): The apparatus of claim 15 wherein said cell phone includes a camera, said cell phone camera being mounted to said front surface of said cell phone

whereby scenes internal or external to said vehicle are viewed as the angular position of aid frame is adjusted.

22. (new): A device for mounting a phone having a camera incorporated therein on top of a vehicle dashboard, said vehicle having a battery, said camera facing towards the vehicle interior, said vehicle battery powering said camera phone.
